Product Architect | Senior Product Designer

Turning complex enterprise workflows into simple products, with the numbers to show for it.

Bengaluru, India | +91 9620325159 | abhisheklokesh.uiux159@gmail.com

PROFESSIONAL SUMMARY

Product designer who turns complex enterprise workflows into simple products, with results the business can measure. 7+ years across insurtech, IoT and e-commerce, for clients and users in **the UK and India**. Unified **four insurance lines into one platform**, helped cut **manual submission effort by 92%** and lift **underwriter throughput 2.5×**, and **built a design team from one to four**. Owns the full journey, from business requirements to an **AI-assisted build**.

CORE COMPETENCIES

End-to-End UX: **User Research** • **Product Discovery** • Information Architecture • User Flows • **Interaction Design** • Prototyping • **Usability Testing**

Design Systems: **Component Libraries** • **Design System Re-platforming** • Design Tokens • Design Governance • Engineering Handoff

DesignOps: **Team Leadership** • **Stakeholder Management** • UX QA

AI-ASSISTED PRODUCT DESIGN

- **Human-led, AI-executed:** owns the thinking (problem framing, research and design decisions) and uses AI as the **execution layer**, not a shortcut.
- **Research and analysis:** AI-assisted research, **competitive analysis** and **heuristic UX audits**, used to reach sharper problem statements faster.
- **Ideas to working interfaces:** turns solutions and wireframes into **structured prompts** that produce high-fidelity, **interactive and modern interfaces** in Claude Design and Figma Make. Live examples: NutBite, Spendly and the portfolio website itself.

TOOLS

Design: Figma (Tokens Studio) • Adobe XD • FigJam • Notion

AI: Claude Design • Lovable

PROFESSIONAL EXPERIENCE

Staff UX Designer | Concirrus

Jul 2023 to Sep 2026 | AI-native specialty insurance platform, London

- **Grew the design function from one to four designers**, with hiring, onboarding and mentoring, across Marine, Aviation, Construction and PV&T.
- Turned a Marine-only workflow into **one submission-to-quote-to-bind journey for all four lines**. New lines were added **through configuration, not redesign**.
- Helped cut **manual submission effort by 92%** (from about half a day to minutes) and lift **submissions per underwriter by 2.5× a day**, with no added headcount.
- Designed a self-serve **User and Team Management** module in three phases. Role and permission changes went **from about a week to a few minutes**.
- Led a **design system re-platform** into **one governed library**, and set three interaction patterns as platform standards.
- Launched **“Design Panorama”**, a cross-product design review that **cut revision cycles by 20%** and freed 4 to 6 hours per designer each week.

UX Designer | CoreValue Technologies

Oct 2020 to Jun 2023

- Joined as the **company's first UX designer** and set up design from the ground up, including **design systems** and handoff standards for client products.
- **Designed BirdsEyeView's catastrophe risk platform from scratch** for the London insurtech, working directly with the client to turn complex hazard and exposure data into a tool underwriters could use with confidence. Owned end-to-end design across **four live products** (insurance, IoT, e-commerce and web) for **clients in the UK, India and the US**, leading requirements workshops and usability testing.

- Led **UX QA before every release** and mentored junior designers through critique and project reviews.

UI Designer | LocalCube Commerce Pvt Ltd (StoreKing)
May 2019 to Oct 2020

- Designed **low-bandwidth, offline-first commerce interfaces** for rural retailers across web and mobile.

Talent Acquisition Executive | TalentXO (formerly CrewKarma)
Sep 2017 to Nov 2018

- Recruited creative talent for startup, mid-size and enterprise clients, building the listening and stakeholder skills behind the later move into design.

INDEPENDENT PROJECTS

NutBite Store Manager | Freelance Product Designer and Builder
2026 | Live product

- Turned a family-run cashew store's notebook and WhatsApp process into a live app, **designed for a storekeeper with very little tech experience**.
- Covers catalogue, inventory, sales, reports, stock alerts and printed billing. **In daily use**, and the owners brought **two more businesses** for Phase 2.

Spendly | Personal Finance App, Solo Build
2026 | Live product

- Designed, built and shipped end to end with no engineering support. Built for personal use, and now also used by friends and family.

AI-Assisted UX Audit | IRCTC
Self-initiated project

- A **heuristic UX audit and redesign** of India's national railway booking app, using AI to speed up the research.
